PROFESSIONAL SUMMARY

Results-driven QA Engineer with 5+ years of experience across web, mobile, and API testing in Agile environments. Strong expertise in automation using Playwright, Cypress, and Appium, with hands-on experience implementing CI/CD pipelines using GitHub Actions. Skilled in creating scalable automated test frameworks, performing functional and non-functional testing, and collaborating with cross-functional teams to deliver high-quality, high-performance products.

PROFESSIONAL EXPERIENCE

Automation Test Analyst

Feb 2025 – Apr 2025

Freight Cyber Pty. Ltd.

Southbank, Melbourne, VIC, AU

- Implemented automation solutions using Playwright, improving test coverage and reducing manual effort.
- Built and executed automated UI and API test suites to accelerate regression testing.
- Designed CI/CD pipelines with GitHub Actions for daily automated test runs.
- Performed manual functional testing for the web and mobile application.
- Created test cases, managed defects, and collaborated with developers for issue resolution.
- Conducted Playwright training to upskill QA team members.

Agile Test Engineer

Oct 2021 – Oct 2024

TwistResources, Inc.

Pampanga, PH

- Served as sub-test lead, coordinating test activities for multiple QA team members. Collaborated closely with cross-functional teams to maintain release quality.
- Participated in Agile Scrum ceremonies and collaborated closely with Product Owners.
- Performed API testing, security testing using Burp Suite, performance testing, and functional testing.
- Automated test scripts using Cypress and Playwright.
- Identified requirement gaps and proposed improvements during refinement sessions.

Quality Assurance Analyst

Mar 2021 – Sep 2021

Habitap Pte. Ltd.

Ortigas Center, Pasig City, PH

- Created and maintained automated web and mobile test scripts using TestProject.
- Executed manual and automated regression testing.
- Coordinated with offshore developers to ensure smooth release cycles.
- Authored detailed test cases and scenarios.

Quality Assurance Analyst

Jan 2020 – Dec 2020

GoDigital Corporation

Quezon City, PH

- Developed test plans, functional, regression, and end-to-end test cases.
- Provided daily testing reports and maintained test cases.
- Logged defects in Jira and worked with Test Leads to maintain test environments.
